ECOLOGICAL PYRAMID

Apex Predators
Apex Predators are the top predators in the food chain. They have few or no natural predators and help regulate populations of other animals.

Tertiary Consumers
Tertiary consumers are larger predators that feed on secondary consumers. They play an important role in maintaining ecosystem balance.

Secondary Consumers
Secondary consumers are carnivores or omnivores that eat primary consumers. They help control herbivore populations.

Primary Consumers
Primary consumers are herbivores that feed directly on plants. They obtain energy by eating producers.

Producers
Green plants and algae make their own food using sunlight through photosynthesis.

- Hindi (Fluent)

QUALITIES

- Leadership
- Problem Solving
- Teamwork
- Communication
- Time Management
- Attention to Detail

ACHIEVEMENTS

- Contributed to the design of next-generation aerospace systems for future space missions.
- Led a multidisciplinary engineering team on advanced aircraft development projects.
- Received the NASA Exceptional Engineering Achievement Award for technical excellence.
- Successfully improved aircraft performance through innovative engineering solutions.
- Mentored junior engineers and supported the development of future aerospace professionals.

PROFILE

I am a dedicated aeronautical engineer with extensive experience in aircraft design, propulsion, and aerospace research. I lead engineering teams at NASA, committed to developing innovative solutions that expand the possibilities of flight and space exploration.

EMPLOYMENT

Head Aeronautical Engineer
NASA – PRESENT

- Lead engineering teams on aerospace projects.
- Design and improve aircraft and spacecraft.
- Test new ideas and technologies.
- Solve engineering problems and support space missions.
- Ensure all work meets high safety and quality standards.

Senior Aeronautical Engineer
STELLAR AEROSPACE ENGINEERING: JAN 2020 – DEC 2024

- Designed and tested aircraft systems.
- Improved aircraft performance and safety.
- Worked with engineering teams on aerospace projects.
- Solved technical problems.
- Ensured all designs met quality and safety standards.

EDUCATION

ASTRA INSTITUTE OF AEROSPACE ENGINEERING
Bachelor of Aeronautical Engineering (B.Eng.)

ST. XAVIER'S COLLEGE, MAITIGHAR, NEPAL
Grade 11 & Grade 12 (Science)

KMC SCHOOL, BUDDHANAGAR, NEPAL
Grade 1 – Grade 10

Table 3.1: Essential Keyboard Shortcuts

LIFE CYCLE OF A BUTTEFLY

Larva (Caterpillar): The egg hatches into a caterpillar that eats leaves and grows quickly.

Pupa (Chrysalis): The caterpillar forms a chrysalis, where it changes into a butterfly.

Adult Butterfly: The butterfly comes out of the chrysalis, flies, drinks nectar, and lays eggs to begin the life cycle again.

Egg: The butterfly lays tiny eggs on the leaves of plants.
